Hexagon Robotics is a division of Hexagon – a global leader in precision measurement. Established in 2025, Hexagon Robotics develops humanoid robots for industrial sectors to address labor shortages and enable the transition from automation to autonomy. The first humanoid product, AEON, was launched in June 2025 and combines agility, awareness, spatial intelligence and versatility to provide a market-leading solution for automotive, transportation, aerospace, manufacturing, and logistics customers.

At Hexagon Robotics, we're always looking for outstanding talent across a wide range of disciplines. Whether you build innovative systems, write elegant code, lead complex projects, or drive business growth – if you believe your skills and mindset can move us forward, we'd love to hear from you.

Your Mission

We regularly open new positions in the following areas:

- Software Engineering
- DevOps & Infrastructure
- AI / Machine Learning / Computer Vision
- Mechatronics & Hardware Engineering
- Project Management
- Product Management
- Testing / QA

Your Skillset

- You have experience or strong interest in one (or more) of the areas listed above.
- You thrive in fast-moving, interdisciplinary environments and enjoy taking ownership.
- You combine analytical thinking with a hands-on mentality and creative problem-solving.
- You're proactive, collaborative, and bring a growth mindset.

- Business Development & Sales
- Marketing & Communications
- Operations & Logistics
- Finance & Controlling
- Internship
- Master Thesis

- You communicate clearly, appreciate feedback, and enjoy working with passionate teams.
- You are fluent in English; German is a plus, but not required.

Tell us where you see yourself adding value – and why you're excited about joining us. Your initiative might be exactly what we didn't know we needed.

What You'll Get

- Flexible working hours and a hybrid model for real work-life balance
- Generous vacation: 25–30 days depending on age
- CHF 500 mobility credit for sustainable commuting
- Bonus system & strong pension contributions
- Tailored training & development opportunities
- Relocation support for a smooth start
- Discounts on health, mobility & entertainment
- Team events and a flat hierarchy where your voice counts
- A warm, international culture built on respect and collaboration

Great robots need great people.
